**WHAT YOU NEED TO KNOW - Summary of revisions in this issue:**

Objective:

The DXL Group Vendor Compliance Guide is provided to all vendors and is the single common location of DXL Group basic requirements needed to achieve the manufacturing of a quality product deemed acceptable to DXL Group, Inc. This invaluable tool is updated and enhanced to ensure that our commitment to deliver merchandise to our customers is consistently met.

You must provide the contact information for the key roles and positions in your company that must be proficient and knowledgeable of the contents of the vendor guide to ensure future communications are sent to the most appropriate individuals. Email this information to Director of Vendor Compliance and Quality Assurance.

Be advised the packing instructions in this guide do not pertain to 'drop' shipments to the stores.

**Table of Contents will note updated changes by category in red. Updated month and year will appear at the top of the table. Updated changes will reflect only changes made in the listed month; previous changes will be removed.**

Thank you with regards,

Sandy Sherman  
VP, Tech Design & Vendor Compliance
